# Wellness Begins Here

Radiant Heart Yoga & Wellness offers thoughtfully designed wellness services to support staff well being, stress management, and nervous system regulation. Our services are created for workplaces seeking accessible, meaningful ways to support their teams in navigating the demands of daily work life.

Each offering blends gentle movement, breathwork, sound based practices, and nervous system informed tools to help participants reduce stress, improve focus, and cultivate resilience. Sessions are grounded, inclusive, and designed to meet people where they are regardless of prior experience with yoga or wellness practices.

All services are offered as 60 minute experiences and can be adapted to fit a variety of professional settings, including corporate offices, schools, healthcare environments, and nonprofit organizations. Practices are accessible to all bodies and experience levels, with options that can be done seated, standing, or lying down depending on space and participant needs.

Radiant Heart's approach emphasizes practical application and sustainability. Participants leave each session not only feeling more relaxed, but also equipped with tools they can integrate into their workday and daily life.

We look forward to collaborating with you to create wellness experiences that support your staff in feeling grounded, supported, and more present.
